

# IT-MDI *NoN*-Power (Networks of Networks Power Cogeneration)

- From 6kW to over 1MW
- 12 KW unit: 770 L x 700 W x 500 H (mm)
- Residential to industrial distributed power generation
- Stand alone applications (e.g. emergency back up, UPSs, irrigation, remote farms, etc.)
- Intelligent Power Networks (iPower) integrated with IndraNet's FraMe Networks
- Estimated costs at the point of use
- Presently, around \$0.06/kWh
- Year One, post manufacturing launch, \$0.04/kWh
- Wide variety of primary energy sources: diesel, natural gas, LPG, solar, gasified biomass, wood waste, ethanol, coconut oil, tallow, rapeseed oil, etc.
- Easy and competitive transition to renewable energy sources
- Impressive cost reductions for manufacture, operation and maintenance
